CCF offer a complete service to the specialist interiors industry involved in ceilings, drywall, screeding, insulation, partitioning and fire protection. We hold massive stocks of one of the best core product ranges in the industry, at prices which are competitive. And because of our large stock holdings, you can rely on CCF to deliver on time, in full, every time.

Our entire product range is backed by specialist staff who are committed to giving you the best possible service and putting you first. Above all we're dedicated to delivering on our commitments and keeping promises at all times.

- **A core product range that can be supplied from stock**
- **Deliveries on time and in full**
- **Staff who understand and always put you first**
- **Service you can trust and advice you can rely on**
- **Competitive pricing**

### **Ceilings**

A comprehensive range of mineral, metal and plaster tiles, grid systems and accessories from major manufacturers.

### **Drywall**

A complete range of dry lining products available nationally from the UK's leading distributor.

### **Screeding**

Nationwide distribution of a broad but specialist product range coupled with in-house technical expertise is now available to all CCF customers.

### **Insulation**

A range of specialist insulation branches with huge stocks and fast, reliable delivery.

### **Partitioning**

A versatile range providing attractive, economical solutions with acoustic and fire performance where required.

### **Fire Protection**

Fire protection and fire barrier products from leading manufacturers and a range of metal products, fixings and access panels.

# TRADELINE RANGE GUIDE

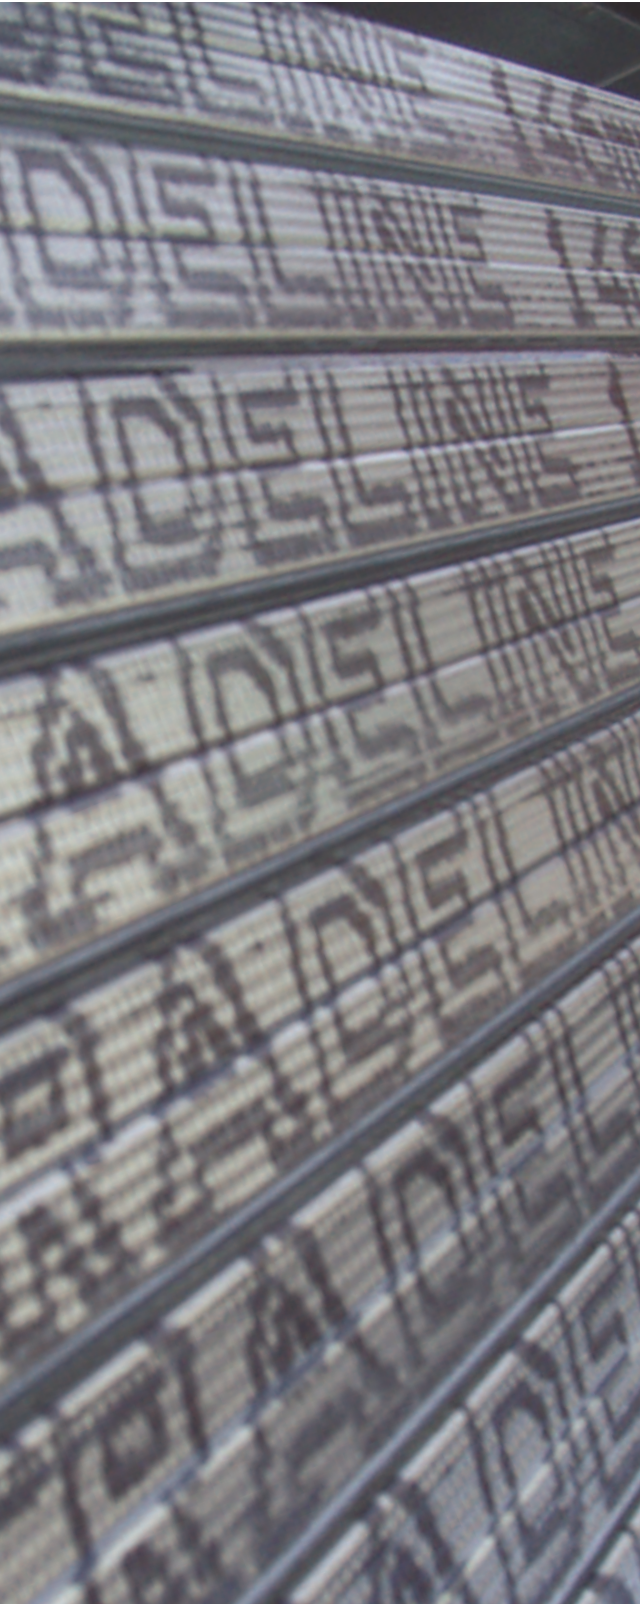

Exclusive to CCF, Tradeline offers specialist installers a complete drywall solution at a competitive price – all available for next day delivery on stocked items.

The Tradeline range has now been extended even further and includes new galvanised metal sections, access panels and timber products, new drywall fixings and anchors and all the accessories you need to make the job easier, from paper joint tape to 2 in 1 Acoustic Sealant and Intumescent Mastic.

Where appropriate, our products have been tested or assessed by independent accredited laboratories and meet the relevant British Standards. For instance, the Tradeline range of high quality drywall products are compatible with all makes of plasterboard which conform to BS1230:1994. This means that installers can be confident that Tradeline products are of the highest quality and will perform exactly as required.

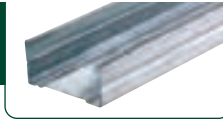

# GALVANISED METAL SECTIONS

This range of metal sections was first branded Tradeline in January 2006 but have actually been sold by CCF for many years. Tradeline metal sections provide the foundations from which the CCF drywall solution range has developed. Tradeline metal sections are tested or assessed by independent laboratories to give installers the confidence to trust Tradeline products and solutions. The range includes stud and track, channels and angles, MF ceiling and wall furring, I studs, resilient bars and acoustic studs.

# WALLBOARD JOINT TAPES AND ACCESSORIES

New to Tradeline are a range of jointing tapes, metal corner tapes and accessories. These plasterboard jointing products compliment the long established CCF fibre mesh which is now also branded Tradeline. To finish the jointing process, 100 grit and 120 grit sanding paper suitable for use with universal pole sanders are now available. The 310ml 2 in 1 Acoustic Sealant and Intumescent Mastic now additionally comes in a 900ml size cartridge.

# DRYWALL SCREWS AND FIXINGS

A comprehensive range of drywall screws, anchors and fixings is essential to the drywall specialist. The Tradeline range will not disappoint. Popular sizes of bulk packed and collated drywall screws are there for when larger quantities are required in a wide choice of product sizes and applications. Standard drywall screws are supplied with a PH2 drive bit.

## SENCO – COLLATED DRIVERS AND DRYWALL SCREWS

CCF have introduced the well proven range of Senco collated drivers and drywall screws. These leading high quality screw fixing systems have been designed to meet the requirements of the busy drywall installer. Applications include wood to wood, drywall to wood or steel, sub floors and joinery.

All battery models have a patented clutch design for long-lasting durability, a one hour charger and extra battery, the DS205 & DS275 also include a reverse feature to remove screws. Corded versions include a trigger lock for continuous work, and adjustable depth of screw drive.

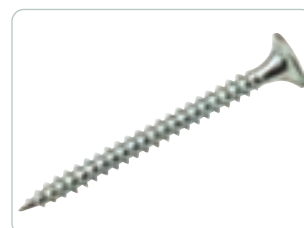

The screwdrivers are available in 14.4v, 18v cordless and 110v corded options. The range of five drivers have a rating between 2,300 and 4000 rpm and accepts collated screws from 25mm to 75mm.

548027	66 x 28 x 3000mm softwood stud infill
654034	42 x 28 x 2700mm softwood stud infill (standard)
654035	66 x 28 x 2700mm softwood stud infill (standard)
coming soon	62 x 28 x 2700mm softwood stud infill

Shadow battens are normally used to provide a perimeter shadow relief in some exposed grid ceiling systems. Timber battens are produced in 3.0m lengths and in a nominal size of 18 x 44mm, they can be supplied painted on one face in either black or white. They are an ideal choice to compliment the Treetex range of ceiling solutions. Shadow battens are also available in pre-drilled MDF. These are normally supplied in black, although other colours are available upon request.

### SHADOW BATTENS

PRODUCT CODE	PRODUCT DESCRIPTION
547644	18 x 44 x 3000mm Timber shadow batten Black
547656	18 x 44 x 3000mm Timber shadow batten White
547199	18 x 38 x 2440mm MDF shadow batten Black
547253	25 x 38 x 2440mm MDF shadow batten Black

### Whatever your timber needs....

This is just a small example of popular timber products that we have introduced to meet our customer requirements. If what you need is not shown here please let us know and we will do our best to source your requirements and add your regular products to our Tradeline range.
